

From	To	Type	Activity	Detailed description	Organisation/contact	Time	Venue	Language	Area	Link	Public	Costs	Contact
01.08.2017	31.12.2017	Miscellaneous	App: Guidelines for Antibiotic Usage, new edition	New edition (and extended content) of the Guidelines for Antibiotic Usage (Vademecum Infectiologie) available as an app for all staff.	Stadtspital Triemli Gerhard Eich		Stadtspital Triemli, Zurich	German	Human		no		Gerhard Eich
01.10.2017	31.12.2017	Course	Internal staff training: Introduction of standardised measures for antibiotic stewardship	Training on antibiotic usage and resistance data from the Klinik St. Anna. as well as visit checklist with switch criteria. Target public is doctors and care staff.	Infectiology and Hospital Hygiene, Klinik St. Anna Christina Orasch		Klinik St. Anna, Lucerne	German	Human		no		Christina Orasch
01.10.2017	31.12.2017	Course	Antibiotic Stewardship	«Antibiotic Stewardship» programme: Infectiological visits with a focus on proper indications for antibiotic therapy, correct choice of antibiotic, appropriate duration of therapy. To be conducted in various departments of all Stadtspital Triemli clinics, October to December 2017.	Stadtspital Triemli Gerhard Eich		Stadtspital Triemli, Zurich	German	Human		no		Gerhard Eich
27.10.2017	27.10.2017	Lecture	Meeting of veal farmers (integrated production) from Western Switzerland	Annual forum for discussing the measures taken. New demands on fattening with regard to antibiotic resistance. Presentation of the «M-File» management system.	UNIVO Hubert Gauderon	10.00 a.m.–4.00 p.m.	Corminboeuf	French	Animal/Agriculture		no	none	Hubert Gauderon
02.11.2017	02.11.2017	Lecture	Seminar for general practitioners on using antibiotics to treat respiratory tract infections.	The seminar will cover the following topics: - When urethritis fights back - Antibiotics are not automatic: treating upper respiratory tract infections - «Doctor, I'm so tired...»: chronic fatigue - Febrile exanthem in adults: a diagnosis fraught with difficulties - Case study. Infectious diseases team	Geneva University Hospitals Benedikt Huttner	1.30 p.m.–4.00 p.m.	Natural History Museum of Geneva	French	Human	http://www.hug-ge.ch/sites/interhug/files/structures/maladies_infectieuses/infectologie_nov17_hd.pdf	no	none	Benedikt Huttner
09.11.2017	16.11.2017	Publication	Publication on the project to implement the STAR strategy in human medicine	The website is to be updated with new articles on the project to implement the STAR strategy. Prescription guidelines, antimicrobial stewardship programmes and guidelines to prevent outbreaks will be developed. A newsletter will also be sent.	Swissnoso, the Swiss Society for Infectious Diseases, the Swiss Society for Microbiology Viktorija Rion			German	Human		yes	none	Viktorija Rion
13.11.2017	24.11.2017	Exhibition	Small exhibition at HAFL	Small exhibition in HAFL foyer, topics are projects at HAFL related to the issue of reducing antibiotic usage.	School of Agricultural, Forest and Food Sciences (HAFL) Judith Peter-Egli	full day	HAFL, Zollikofen	German	Animal/Agriculture		yes		Judith Peter-Egli
13.11.2017	19.11.2017	Lecture	Braunvieh Academy	Within the framework of a training programme for farmers, the topic of animal health and calf health in particular is covered in some modules.	Kometian association – complementary veterinary medicine Michaela Glarner	full day	Various Braunvieh (brown cattle) breeders	German	Animal	http://homepage.braunvieh.ch/xml_1/internet/de/application/d3/d1458/f1457.cfm	no		Michaela Glarner
13.11.2017	13.11.2017	Lecture	Lecture for doctors and care staff	Antibiotic resistance: What should we expect?	Stadtspital Triemli Gerhard Eich	from 08.00 a.m.	Stadtspital Triemli, Zurich	German	Human		no		Gerhard Eich
13.11.2017	13.11.2017	Lecture	Information event for milk producers	Afternoon event on the topic of antibiotic resistance in the Eastern Switzerland area. The main focus will be raising awareness amongst milk producers through the presentation by the main speaker from the Institute for Food Hygiene and Safety, Prof. Dr. med. vet. Roger Stephan, of the University of Zürich. In addition, individual milk producers will also give examples of how numerous livestock keepers are already using alternative methods and corrections successfully to keep their herds healthy and have therefore been able to reduce their usage of antibiotics. The event is organised jointly with the collective sponsoring member Vereinigte Milchbauern Mitte-Ost (Central-Eastern Switzerland united dairy farmers, www.milchbauern.ch) and Thurgauer Milchproduzenten (Thurgau-based milk producers, www.milchthurgau.ch).	Kometian Association – Complementary Veterinary Medicine Marlis Ammann	1.15 p.m.–4.00 p.m.		German	Animal		yes		Marlis Ammann
13.11.2017	13.11.2017	Lecture	«Reducing antibiotic resistance - we're making progress!»		Swiss Farmers' Union Thomas Jäggi			French	Agriculture				Thomas Jäggi
13.11.2017	19.11.2017	Course	Lectures and workshops in schools	What do you do when the cow/calf is sick? Prevention and complementary medicine in the cattle stall - what should I know about foods of animal origin as a future consumer?	Research Institute of Organic Agriculture (FiBL) Christophe Notz		Schools in German- speaking Switzerland	German	Animal		yes	none	Christophe Notz
13.11.2017	13.11.2017	Course	Seminaire Résistance Emergentes aux antibiotiques	Resistances Emergentes aux antibiotiques; état des lieux et stratégie globale de lutte. Résistance Emergentes aux antibiotiques: l'approche «one-health», mythes.	NARA Patrice Nordmann	5.00 p.m.–6.30 p.m.	University of Fribourg	French	Human		yes		Patrice Nordmann
13.11.2017	19.11.2017	Course	Training event for general practitioners and paediatricians	The challenges posed by antibiotic resistance (AMR) can lead to a scientifically open attitude towards the approaches and potential offered by diverse medical concepts. Observational studies have shown that doctors practising complementary or integrative medicine prescribe fewer antibiotics, with good curative effects in the case of e.g. bladder infections, infections of the upper and lower respiratory tracts, middle ear infections. This indicates that there are treatment options for antibiotic therapy both in the case of prophylaxis and in the treatment of bacterial infections. A workshop or symposium is planned, in which experts from various classical and complementary medical specialisms will discuss the contribution and the limitations of complementary and integrative medical concepts and develop initial possibilities for its implementation in the national AMR strategy.	Institute for Complementary Medicine IKOM, University of Bern Ursula Wolf		University of Bern	German	Human		no		Ursula Wolf
13.11.2017	19.11.2017	Miscellaneous	Information campaign on the CHUV's intranet and internet	Continuous training for hospital physicians, general practitioners, paediatricians Awareness-raising of carbapenem resistance	Lausanne University Hospital CHUV Laurence Senn			French	Human		yes	none	Laurence Senn
13.11.2017	17.11.2017	Miscellaneous	Information stand for Plantahof students during Antibiotic Awareness Week	Plantahof is the centre for agricultural training and consultancy in the Canton of Graubünden. As part of Antibiotic Awareness Week, we would like to take the opportunity to raise awareness amongst our agriculture students and course participants of the issue of antibiotic resistance. We are planning to give out a brochure about the strategy to each student and course participant and discuss the topic with them. We would also like to set up an information stand about this issue in the reception area.	Plantahof, agricultural training and consultancy centre Martin Roth		Plantahof, Landquart	German	Animal/Agriculture		no	none	Martin Roth

13.11.2017	19.11.2017	Lecture	Lectures for staff from the University Hospital Zurich on the topic of "StAR wars: may the antibiotics be with you"	Under the StAR initiative run by the Swiss Federal Office of Public Health, the Department of Infectious Diseases and Hospital Epidemiology at the University Hospital Zurich and the Institute of Medical Microbiology at the University of Zurich will be raising awareness of the issue of antibiotic resistance in the week from 13 to 19 November 2017 with lectures and feedback sessions held as part of the infectiological consultation service. The lectures, which will be conducted in German, are aimed at doctors, nurses and any other interested members of staff at the UHZ.	University Hospital Zurich Rainer Weber	University Hospital Zurich	German	Human	http://www.infektiologie.usz.ch/ueber-die-klinik/veranstaltungen/seiten/STAR-wars---may-the-antibiotics-remain-with-you.aspx	no	none	Rainer Weber	
13.11.2017	19.11.2017	Miscellaneous	The Swiss Society for Microbiology (SSM) will produce a series of mini-videos showing specialists from universities in French-speaking Switzerland (Lausanne, Geneva, Neuchâtel and Fribourg) answering various questions on the issue of antibiotic resistance	The videos will go online in the week beginning on 13 November and will be accessible from the sites of various organisations: (SSM: www.swissmicrobiology.ch , BiOutils: www.bioutils.ch , RTS-découverte (microbes): http://www.rts.ch/decouverte/sante-et-medecine/corps-humain/microbes).	Swiss Society for Microbiology (SSM) / BiOutils / RTS-découverte Karl Perron	Universities of French-speaking Switzerland	French	Human	www.swissmicrobiology.ch	no	none	Karl Perron	
13.11.2017	19.11.2017	Miscellaneous	Information poster in the clinic reception and information notice on the clinic's homepage	A poster highlighting the issue of antibiotic resistance is being put up in the reception area of the Clinic for Ruminants. This is intended to raise awareness by explaining what resistance is, how farmers can help to reduce the use of antibiotics and what the Clinic for Ruminants is doing to tackle this issue. This information is being provided in various forms, including as a flyer handed out to pet owners and as a notice on the clinic's website.	Vetsuisse Faculty (University of Bern), Clinic for Ruminants Mireille Meylan	Clinic for Ruminants, University of Bern	German	Animal	www.wiederkaeuerklinik.unibe.ch	yes	none	Mireille Meylan	
13.11.2017	19.11.2017	Publication	Publication of a specialist article in the SAT (Schweizer Archiv für Tierheilkunde [Swiss Archive of Veterinary Medicine]) and in the medical journal and press release for the StAR symposium for small animal vets	The GST (Swiss Society of Vets) is planning a discourse in the SAT (Swiss Archive of Veterinary Medicine) and in the medical journal as part of Antibiotic Awareness Week. The intention is to publish an article from a human medicine perspective and one from a veterinary perspective. Involvement in the StAR symposium for vets (main organiser: FSVO)	Gesellschaft für Schweizer Tierärztinnen und Tierärzte Patrizia Andina-Pfister		German	Animal		yes	none	Patrizia Andina-Pfister	
13.11.2017	19.11.2017	Publication	Publication on the Interpharma website	Online article on the involvement of the research-based pharmaceutical industry in investigating and developing new active agents in an international context	Interpharma, association of research-based pharmaceutical companies in Switzerland Sara Käch		German	Human		yes	none	Sara Käch	
13.11.2017	19.11.2017	Publication	Publication of specialist articles on the website and on social media and distribution of a press release		KAGFreiland, organisation for the protection of livestock Pascal Girod		German	Animal/Agriculture		yes	none	Pascal Girod	
13.11.2017	19.11.2017	Publication	Publication on the Cantonal Ministry of Public Health's website		Ministry of Public Health for the Canton of Obwalden Patrick Csomor		German	Human		yes	none	Patrick Csomor	
13.11.2017	19.11.2017	Publication	Distribution of a newsletter on Antibiotic Awareness Week designed to raise awareness amongst doctors in the Canton of Bern		Medical Office for the Canton of Bern Meret Ricklin		German	Human		no	none	Meret Ricklin	
13.11.2017	19.11.2017	Miscellaneous	The foundation supports the Strategy on Antibiotic Resistance and is working with the Federal Office of Public Health (FOPH) on this issue, particularly within the framework of its conferences		Kollegium für Hausarztmedizin (KHM) / Collège de médecine de premier recours (CMPR) Bénédicte Laville		French	Human		no	none	Bénédicte Laville	
13.11.2017	19.11.2017	Publication	Distribution of a newsletter on Antibiotic Awareness Week		mfe Haus- und Kinderärzte Schweiz Philippe Luchsinger		German	Human		no	none	Philippe Luchsinger	
13.11.2017	19.11.2017	Publication	Press release sent out about investigations into pre-cooked food in restaurants		Swiss Association of Cantonal Chemists (SACCh) Philipp Hübner		German	Humans		yes	none	Philipp Hübner	
13.11.2017	19.11.2017	Miscellaneous	Information campaign on the website, social media and a stand in the hall at Sion Hospital	Raising awareness through the information campaign on the website, Facebook and the Intranet. There is also a stand with information material on the World Antibiotic Awareness Week in the hall at Sion Hospital. In addition, the documents are available from reception at the hospitals in Brig, Visp, Sierre and Martigny.	Hôpital du Valais Diana Dax	Valais	French	Humans		yes	none	Diana Dax	
13.11.2017	13.11.2017	Lecture	"Agriculture gets involved!"		Schweizer Bauernverband Thomas Jäggi	Ruedi Bigler's farm Eichenstrasse 63, Moosseedorf	German	Agriculture		1.15 p.m. – 2 p.m.	no	none	Thomas Jäggi
13.11.2017	19.11.2017	Publication	Raising awareness through articles and information materials	Articles covering various different topics will be published on the website and sent to various different media.	Dachverband Schweizerischer Patientenstellen (Federation of Swiss Patient Centres) Erika Ziltener		German	Human		yes	none	Erika Ziltener	
13.11.2017	19.11.2017	Lecture	Announcement about the week, the different activities proposed, and a short presentation about the StAR strategy		Directorate General for Health, Cantonal Medical Service Jacques-André Romand		French	Human			no	none	Jacques-André Romand
14.11.2017	14.11.2017	Lecture	Media/Veterinarians' event at UFA Bühl on using fewer antibiotics through targeted calf rearing.	In calf fattening, the health of the animals depends on targeted management of rearing. As part of the project Colorisopotop, UFA and Zoetis performed extensive tests and achieved strong results, as well as learning important lessons. Monitoring animals and responding quickly are also important success factors for reducing the use of antibiotics. At UFA Bühl, the new SmartCalf System was installed for the first time in Switzerland to help improve management. New possibilities will be explained during the presentations.	UFA AG, test operation UFA-Bühl Samuel Geissbühler	UFA Bühl, Hendschiken	German			1.30 p.m.–3.15 p.m.	no	none	Samuel Geissbühler
14.11.2017	14.11.2017	Lecture	StAR human medicine stakeholder workshop	A range of presentations by experts will provide information about current and planned measures and promote the exchange of ideas between people working in human medicine. Experts, groups and associations specialising in human medicine, representatives of the cantons and the federal offices involved and international and private sector stakeholders are invited.	Federal Office of Public Health FOPH Johanna Evéquoz	Hotel Bern, Bern	German	Human		1.45 p.m.–5.15 p.m.	no	none	Johanna Evéquoz
14.11.2017	14.11.2017	Lecture	Short lecture on antibiotic resistance as part of the Grand Rounds programme at the Geneva University Hospitals (HUG)		Geneva University Hospitals Benedikt Huttner	Geneva University Hospitals	French	Human	http://www.hug-ge.ch/specialites-medecine/colloques-du-mardi	no	none	Benedikt Huttner	
14.11.2017	14.11.2017	Course	Symposium on the topic of antibiotic resistance	The symposium offers a broad overview of current developments in the field of antibiotic resistance, of the dangers and risks, but also of potential solutions. It is aimed at specialists, politicians and media professionals and offers a platform for exchange and networking related to the issue of antibiotic resistance.	Public Health Switzerland Corina Wirth	Hotel Bern, Bern	German	Human	https://public-health.ch/de/aktivitaeten/veranstaltungen/symposien/antibiotikaresistenzen/	yes	CHF 100 Members' rate CHF 150 Non-members' rate	Corina Wirth	

14.11.2017	14.11.2017	Miscellaneous	Information material on quality indicators in outpatient medicine	Information will be handed out to participants at EQUAM's symposium. Quality indicators in outpatient medicine are being developed and implemented in accordance with EQUAM's quality programme on medication safety.	EQUAM Foundation Paula Bezzola Grangeneuve, agricultura	1.30 p.m. – 5.00 p.m.	Welle7, Bern	German	Humans	no	none	Paula Bezzola
14.11.2017	14.11.2017	Publication	Information about the ReLait project on reducing antibiotics in dairy farming in the Fribourg region	Presentation of the project to the press based on a dairy farm involved in the project. Presentation of the strategies aimed at reducing the use of antibiotics in dairy farming.	institute of the Canton of Fribourg Jean-Charles Philipona	from 10.30 a.m.	Vogelhus 77, Börsingen	French	Animal/Agriculture	yes	none	Jean-Charles Philipona
15.11.2017	15.11.2017	Lecture	Information morning about the trials, their results and the practical implications of reducing the use of antibiotics for fattening pigs	Presentations intended for the general public and those with more specialist knowledge.	Agroscope Posieux Myriam Rothacher	8.30 a.m.–11.30 a.m.	Agroscope, Posieux	French	Animal		https://www.agroscope.admin.ch/agroscope/fr/home/actualite/manifestations.html	Myriam Rothacher
15.11.2017	15.11.2017	Lecture	Training event for general practitioners, gynaecologists and paediatricians	Medicinal plants play an important role in the early treatment of infectious diseases. The training event uses clinical studies, observational studies and experience reports (case studies) to show which plant preparations may be employed in the case of colds, urinary tract infections and infectious skin diseases, in order	Swiss Medical Society for Phytotherapy (SMGP) Beatrix Falch	6.00 p.m.–8.00 p.m.	Zürich, IKI (Institute for Complementary and Integrative Medicine), University of Zurich	German	Human		http://www.smgp.ch/smgp/homeindex/veranstaltungen.html	Beatrix Falch
15.11.2017	15.11.2017	Lecture	Member meeting, infection prevention specialists from German-speaking Switzerland	Training event inc. Lecture on the topic of StAR: Federal Strategy on Antibiotic Resistance.	University Hospital, Inselspital Bern, Infection Prevention Marianne Laguardia	1.30 p.m.–4.30 p.m.	Inselspital Bern	German	Human	no		Marianne Laguardia
16.11.2017	16.11.2017	Further education	Training for agricultural consultants, teachers and employees of the cantonal veterinary offices (StAR multipliers)	Continuing education course on current StAR issues relating to livestock. The target audience will act as «multipliers» by passing on their knowledge in their capacity as trainers and consultants working with agricultural schools.	FSVO, Agridea Marc Bössinger	full day	Bern	German	Animal	no	none	Marc Bössinger (Nadine Metzger)
16.11.2017	16.11.2017	Lecture	Five lectures followed by a tour of the new ARA site	Five lectures on the elimination of antibiotic residues and antibiotic resistance from waste water by the use of an additional cleaning stage for micro-pollutants. Followed by a tour of the new ARA site (ozone treatment) Total duration approx. 4h.	VSA Swiss Water Association Nadine Czekalski	2.00 p.m.–6.00 p.m.	ARA new site, Dübendorf	German	Environment	yes	none	Nadine Czekalski
16.11.2017	16.11.2017	Lecture	Lecture on the topic of «New antimicrobial agents»	Lecture by Dr Sven Hobby from the Institute of Medical Microbiology at the University of Zurich, given as part of the Colloquium on Infectiology and Microbiology at the University Hospital Zurich.	Swiss Expert Committee for Biosafety (SECB) Isabel Hunger	5.00 p.m.–5.45 p.m.	University Hospital Zurich Small lecture theatre, PATH Schmelzbergstr. 12	German	Human	yes	none	Isabel Hunger
16.11.2017	16.11.2017	Course	Training event for general practitioners and paediatricians	Primary care providers play an important role in prescribing antibiotics. On the basis of clinical studies, the potential use of homeopathy for the treatment of uncomplicated acute infections (e.g. Otitis media, cystitis, URTI, gastroenteritis, sinusitis) in conjunction with conventional medicine is discussed using case vignettes. The participants will receive guidance on independent treatment of these types of infection. The treatment of recurrent or chronic infections is also discussed. The participants will receive guidance on independent treatment of these types of infection. The treatment of recurrent or chronic infections is also discussed.	Institute for Complementary Medicine IKOM, University of Bern Martin Frei-Erb	1.30 p.m.–5.00 p.m.	University of Bern	German	Human	no		Martin Frei-Erb
17.11.2017	17.11.2017	Lecture	Presentation on poultry meat production at the Aviforum	Lecture by Prof. Roger Stephan from the Institute for Food Safety and Hygiene of the University of Zurich, together with the poultry business segments of Micarna, Bell, Frifag and Kneuss.	Aviforum Foundation Ruedi Zweifel	2.00 p.m.–4.00 p.m.	Zollikofen	German	Animal			Ruedi Zweifel
17.11.2017	17.11.2017	Symposium	StAR symposium for small animal vets	The objective of this symposium is to - provide an overview of the resistance issue in human and veterinary medicine - convey information about StAR and its implementation in small animal medicine - discuss gaps, ideas and approaches, particularly for monitoring, the proper use of antibiotics and hygiene concepts	FSVO, SVS, SVK, Vetsuisse Faculty Dagmar Heim	full day	Bern	German	Animal	no	none	Dagmar Heim (Nadine Metzger)
17.11.2017	17.11.2017	Course	Basic course and practical workshop on homeopathy on 17 November	It has been recognised that one of the best methods of slowing the increase in resistance to antibiotics is to use them as little as possible and in a carefully targeted manner. With this in mind, the FRI is encouraging farmers to work to prevent illnesses (comfort and climate in stalls, herd management, food, milking technique, etc.) and is offering continuing education courses on complementary medicine. This year, we have planned a basic course and practical workshops on homeopathy for cattle herds over a day and a half. The first day of the course «Homéopathie pour les bovins: cours de base et ateliers pratiques» («Bovine homeopathy: basic course and practical workshops») will be held on Friday, 17 November.	Fondation Rurale Interjurassienne Véronique Frutschi Mascher	9.30 a.m.–4.00 p.m.		French	Animal			Véronique Frutschi Mascher
17.11.2017	17.11.2017	Lecture	Spread of bacteria and antibiotic-resistant genes in aquatic and clinical environments: Source, identification, risk and prevention		University of Geneva John Poté		Uni Carl Vogt	French	Human		none	John Poté
18.11.2017	18.11.2017	Course	Information event for consumers	Tour of the Liebegg agricultural business for consumers, on the topic of antibiotic usage in animal husbandry and human medicine.	LIEBEGG Agricultural Centre and Aargau Farmers' Association Ueli Wolleb		Liebegg Agricultural Centre, Gränichen	German	Agriculture	yes	none	Ueli Wolleb
21.11.2017	21.11.2017	Lecture	Specialist information evening: Antibiotic resistance – challenges in cattle farming	With representatives from the veterinary service for the cantons of Uri, Schwyz, Nidwalden and Obwalden and the Gross- und Nutztier-Praxis Uri AG, we have been able to find qualified speakers.	Landwirtschaftlicher Beratungsdienst Uri (Uri Agricultural Advisory Service), Braunviehzuchtverband Uri (Uri Braunvieh Breeding Association), Züchtergruppe Uri-Gothard (Uri-Gothard Breeders' Group) Adrian Arnold	8 p.m. – 10 p.m.	Schützenhaus Altdorf	German	Animal/Agriculture	yes	none	Adrian Arnold
22.11.2017	22.11.2017	Lecture			Becton Dickinson AG Sabine Kempf	8.30 a.m. – 4.10 p.m.	Bellevue Palace Hotel, Bern	English	Humans	no	none	Sabine Kempf
23.11.2017	23.11.2017	Lecture	Symposium: Antibiotic resistance - so what?	Bern Infectiology Symposium	Inselspital Bern Hansjakob Furrer	12.30 p.m.–5.15 p.m.	Inselspital Bern, children's clinic, Ettore Rossi Lecture Theatre	German	Human	yes	https://www.regonline.co.uk/builder/site/Default.aspx?EventID=2020061	Hansjakob Furrer

November	November	Miscellaneous	Distribution of information material on Antibiotic Awareness Week to doctors in the Canton of Ticino	During Antibiotic Awareness Week, the cantonal medical officer will team up with the consumer protection organisation for Italian-speaking Switzerland (ACSI) to distribute information material to doctors in the Canton of Ticino. The information material will then be passed on to patients in order to raise awareness of the right way to deal with antibiotics. The consumer protection organisation will also report on this in its weekly public magazine.	Health Department of the Canton of Ticino Giorgio Merlani	Canton of Ticino	Italian	Human	yes	none	Guido Merlani
November	November	Miscellaneous	Distribution of information material on Antibiotic Awareness Week to doctors in the Canton of Uri		Health Department of the Canton of Uri Roland Hartmann	Canton of Uri	German	Human	yes	none	Roland Hartmann
October	November	Course	Various training sessions and information for staff	Various training sessions and information for staff. Antibiotic rounds (audit and feedback) starting in the autumn. These are intended to become a fixture of the Stewardship Programme at LUKS. Campaign flyer and mailing to staff.	Hospital of Lucerne Beat Sonderegger	Lucerne	German	Human	no	none	Beat Sonderegger
October	November	Publication	Publication of a paper article about Antibiotic Awareness Week and health data projects	The specialist article is to be published in the agricultural press and in the trade magazines issued by Braunvieh Schweiz, swissherdbook and Holstein Switzerland.	Association of Swiss Cattle Breeders (ASR) Sarah Görlich		German	Agriculture	yes	none	Sarah Görlich
		Miscellaneous	Launch and promotion of the new advice service called «Diminuer l'emploi d'antibiotiques en production laitière»	The livestock segment of the FRI is in the process of finalising a new advice service called «Diminuer l'emploi d'antibiotiques en production laitière» («Reduce the use of antibiotics in milk production»). The aim of this service is to support farmers in implementing strategies for reducing the use of antibiotics in milk production while ensuring udder health and milk quality. This service has been developed as part of the project «Production laitière durable» («Sustainable milk production») run by the FRI from 2013 to 2016 in collaboration with the Research Institute of Organic Agriculture (FiBL) with funding from the foundation Sur-La-Croix (FSLC). The awareness week will be an opportunity for the FRI to officially launch this new service with promotional activities: distributing information flyers, publishing articles in journals, a newsletter, a press conference and promotion of the interest group.	Fondation Rurale Interjurassienne Véronique Fruttschi Mascher		French	Animal/Agriculture			Véronique Fruttschi Mascher
		Publication	Publication in the "Bündner Bauer" journal		Bio Grischun (Bio Suisse) Bernadette Arpagaus	Grisons	German	Agriculture	yes	none	Bernadette Arpagaus
		Miscellaneous	Press release and media coverage		Fédération romande des consommateurs FRC Barbara Pfenniger		French	Human	yes	none	Barbara Pfenniger
		Publication	Publication of a specialist article in the Competence magazine		H+ Die Spitäler der Schweiz Martina Greiter		German	Human	yes	none	Martina Greiter
		Publication	Information on the health pages of Le Nouvelliste and the Walliser Bote		Ministry of Public Health for the Canton of Valais Emilie Morard Gaspoz		French	Human	yes	none	Emilie Morard Gaspoz
		Publication	Publication of specialist articles in magazines, on the website and on social media	Publication in the astrea magazine, Pharma30 and pharmaJournal. Further information to be distributed within the quality circle, on social media and on the website	pharmaSuisse Rahel Rohrer		German	Human	yes	none	Rahel Rohrer
		Publication	Distribution of information material to insurance providers and publication of an article on antibiotic resistance in the santésuisse customer magazine		santésuisse Sandra Kobelt		German	Human	no	none	Sandra Kobelt
		Lecture	Advanced training event for vets		Veterinary Office for the Canton of Vaud Paola Ruegg		French	Animal	no	none	Paola Ruegg
		Publication			Swiss Expert Committee for Biosafety (SECB) Isabel Hunger		German	Human	yes	none	Isabel Hunger
		Lecture	Publication of the StAR strategy		Dianalabs Nadia Liassine	Dianalabs sample collection centres	French	Human		none	Nadia Liassine
		Miscellaneous	A poster campaign with flyers and a fun game		HPCi Vaud Christiane Pétignat		French	Human	yes	none	Christiane Pétignat
